

The JOURNAL will be found for sale at the Gallipolis Book Store, where also may be found the daily Cincinnati Gazette and Commercial.

Messrs. Norris and Benham have been looking around the past week for a route through the city for the Pomeroy road, and for ground for depot purposes. The present plan is to run through the low gap near the Cemetery, and thence strike Third street above Olive, running thence in a straight course to Mill creek. For depot purposes the square bounded by Third, Fourth, Olive and Sycamore streets, is believed to be suitable for a passenger depot, side-track, yard, etc., and the river front between Cedar and Spruce streets for freight. This plan is subject to contingencies, of course, prominent among which is the success of the Company in securing the property at reasonable figures.

We are sorry to see a disposition on the part of a few property owners to take advantage of this necessity of the Railroad Company by asking extravagant prices for their lots. This is not the first time that the growth of the city has been hindered by this spirit of avarice. Once upon a time a large and important manufacturing establishment was driven away by this same grasping spirit of selfishness. We doubt not the Railroad Company is willing to pay a fair valuation for any property it may want, but to be met at the very threshold of the enterprise with speculative prices is discouraging.

We hope a better spirit will prevail with all. We should encourage the Railroad rather than discourage it, for it is the instrumentality through which we hope for new and better things—through which the business of the city is to be advanced and its real estate made more valuable.

This spirit is akin to that which controlled the owner of the goose that laid the golden egg. He wanted all at once. He not only failed to get what he sought for, but he destroyed the source of his wealth.

#### GAS.

The Gas Company is one of our corporations. In other cities when a man wishes to fight he tackles a gas company, and the company retorts in short metre. Our mission is peaceable. The 208 gas consumers of our city kept last year last year than in the year previous. For the winter months the meters were busy in keeping account of 250,000 feet per month. For the summer months they were only half as busy. We have a rough calculation 2,500,000 feet for the entire year, the 86 street lamps burning nearly half a million. An increased consumption is expected for the new year and to meet it, five new meters of six-inch work have been constructed at a cost of \$1200. Mr. W. R. Morgan, the efficient Superintendent, has placed into position an apparatus for using superheated steam in connection with tar, saving thereby 50 per cent. in the cost of fuel. This is the first step in cheap gas—other improvements are needed to this end. This would give us plenty of coke, which is of a superior quality and finds a ready market here. The contract between the company and the city expires in June and there will be a howl in Rome. We are not raising the war cry, but we wouldn't object to cheap gas. Mr. Morgan informs us that an entire revolution has taken place in gas manufacture in the past two years. Mr. M. has tested a number of old meters and found the registering to be quite accurate.

A woman in this city made a friendly call upon her neighbor. She remained some time. When about to retire the lady host noticed the handle of a spoon protruding from the bosom of her visitor, and inquired what it was doing there. The reply came, "I carry it there as a preventive against nose bleeding, to which I am much subject." When she left, the spoon remained.

A SUGGESTION.—A descendant of one of the old French families of this city, who resides in another State, received a copy of the JOURNAL containing the history of the "Old Men," and after saying "it was very interesting to me," writes as follows: "I wish Mr. Nash had added a list of the old women who are willing to let their ages be known."

At Point Pleasant, Friday, a little daughter of Rev. W. E. Hill, pastor in charge of the Presbyterian Church, fell over the banisters of the stairs from the second story, a distance of about twelve feet, striking the lower floor on her head, receiving fatal injuries. The child is only about three years of age.

She returned to this county in 1869, where she has since lived. She joined the M. E. Church in early childhood, in whose communion she lived until her death. McGEARY.—BERTHIA McGEARY, died with paralysis at her residence on Front street, January 8th, 1880, in the 60th year of her age.

Farwell mother: thine earthly strife is over.  
Thine earthly sorrows past;  
Jesus, thy friend, hath gone before—  
And thou art free at last.

No more the solitude and pain;  
No more the bitter tear;  
A better land thy soul shall gain,  
Than that which held thee here.

Your children did not understand  
The sorrows of thy heart;  
But spirits of the heavenly land  
Shall judge thee as thou art.

A soul that erred, a soul restored,  
A soul that sinned, a soul forgiven;  
Dear to the Christ, the loving Lord,  
And safe at last in heaven.

Farwell, dear mother.

JULIA McGEARY.
